Destination Info

Australia's such a huge country, it has three time zones. There's a real diversity of landscapes and people, so you'll be well at home travelling, chilling and helping endangered animals in Australia.

Beautiful attractions and fantastic activities include surfing and white water rafting, trekking and skiing. As well as natural beauty, Australia's cosmopolitan cities offer shed loads of cultural attractions from sports to art.

The Koala Sanctuary's located in a remote suburb about 30 minutes from Brisbane city.

Australia Koala Sanctuary

The hostel you'll be staying at is in the heart of the city of Brisbane. So you'll never be short of things to do in your free time – from chilling out in the botanic gardens to hitting the best nightlife north of the river in Fortitude Valley. Eat your heart out!

Beautiful sandy beaches are slightly further afield but totally accessible, as are many other sunny destinations along the East Coast.

Itinerary

The sanctuary houses a large variety of Australia's native species, and is divided into different sections: Birds, Mammals, Reptiles, Macropods, Koalas and the hospital. Each day you are at the sanctuary you will be assigned to one of the keepers and will assist them with the daily care and maintenance of the animals in their section. This allows you to experience working in different areas of the sanctuary and get to know all of the different species. Each morning you will be given a work plan so that you know what your responsibilities are for the day.

The work is extremely hands on and physical, with the majority of your time spent assisting keepers with the feeding of the animals and cleaning duties, however there is a whole range of activities for you to get involved in.

The tasks that you will be taking part in include:

- Preparing and collecting food for the animals
- Assisting with the cleaning and maintenance of animal enclosures
- Taking part in behavioural enrichment programmes
- Providing other general assistance to the keepers.

You will also be helping with a variety of other tasks around the sanctuary, which may include:

- Assisting the animal farm staff with cleaning, monitoring visitors and handing out food
- Interacting with the sanctuary's visitors and assisting them with any questions they might have
- Spending time in the kangaroo reserve monitoring visitors and kangaroo behaviour, cleaning and helping with visitor enquiries

Australia Koala Sanctuary

- Assisting the garden and maintenance staff with various tasks around the sanctuary e.g. planting, weeding and cleaning

There are some animals at the sanctuary that you won't have any contact with as they are considered dangerous animals. These animals include Tasmanian Devil, Southern Cassowary, Flying Foxes, Wombats and Venomous reptiles. Although you will not be working with these animals at the sanctuary you will be able to visit them in your free time as often as you wish.

Volunteers stay in Brisbane, which is about a 30 minute bus ride from the sanctuary.

The working day starts at 8:30am, when you'll be assigned your 'keeper' for the day. You then work with them for the rest of the day on various projects around the sanctuary.

In practice, helping out endangered animals in Australia means feeding the animals and cleaning their homes take place every day. But you could also find yourself monitoring kangaroo behavior, preparing food for the animals and helping with the sanctuary's visitors.

You get a 20 min morning tea break and an hour for lunch. And the day finishes at 3pm, when you're free to explore the sanctuary and chill out with the other volunteers, or head back home to hang out in buzzing Brisbane.

You can choose what days you want to work, which can include weekends (please note the availability of days when you can volunteer is dependent on how many volunteers the sanctuary have). Prior to your arrival we will find out from you what days you would like to work. However, these days can be changed and your volunteer schedule will be arranged for you during your orientation at the sanctuary.

Please note: Itineraries and activities are subject to change.

The hostel has great facilities, 24hr security card access, 24hr Internet, luggage storage, laundry, home theatre with surround sound and wide screen TV, a modern kitchen, roof terrace and a great lounge area. At present, there are no storage facilities at the sanctuary for you to leave your valuables. We recommend that during your project work you leave your valuables at the hostel in the safety deposit box at reception.

Cultural Considerations

Australia is a melting pot of different cultures. It has a population of over 21 million people with most of the population living on the east coast between Adelaide and Cairns. High waves of immigration from England, Ireland, Italy, Greece, Malta and Eastern Europe have occurred during Australia's brief history, particularly after World War II, and the later waves from the Middle-East, East, and South-East Asia, as well as the Indian subcontinent, have created a truly diverse population.

Although Australia has no official language, English is spoken by 80% of the population. Chinese, Italian and Greek are respectively the next most common languages, reflecting Australia's cultural diversity and concentration of nationalities. Australians have very strong attitudes and belief systems which are reflected in their culture. Australians traditionally have a very ironic sense of humour.

Vaccinations & Health

Travel health can often be something people forget about before going away, but a little preparation and knowledge can go a long way to help you stay fit and healthy while abroad. The risks to your health whilst travelling will vary depending on your general health and the type of activities you are going to be partaking in and the length of your stay.

Since we are not medically qualified, it is recommended that you consult with your Doctor or a recognised Travel Medical Advisory Service who will assess your particular health risks before recommending vaccines and/or anti-malarial tablets and advising you on what precautions you should take.

Safety

As in most countries there are people who try to take advantage of tourists. The following advice is intended to help

you keep safe:

- Always keep your personal items such as passport, money and camera with you and in a safe place. You can buy mini padlocks to prevent people from going into your bag without your permission.
- Don't carry excess amounts of cash
- Wherever possible, walk around in groups, especially after dark, and avoid taking short cuts
- Do not pick up hitchhikers if you are driving and do not hitch hike yourself
- When you are out do not leave your drinks unattended, as there have been reports of drinks being spiked

We advise that you check your government's advice before travelling abroad. For UK and American customers please see the relevant links below;

USA: www.travel.state.gov

ATM Theft

It is very likely that you will need to withdraw cash at some point during your travels. Please be cautious when withdrawing money from an ATM and ensure that you are vigilant of other people near the ATM, especially those that offer unsolicited assistance if your card is detained. It has been recognised that individuals are operating unlawful withdrawals by placing 'traps' in ATMs whereby personal bank cards are being detained, causing the victim to believe their card transaction has not been completed, and leaving their bank card in the ATM which is then later retrieved by the thief.

If your card is confiscated or you are concerned that your card has been tampered with, please report immediately to the bank or cancel your card.

Food & Drink

Due to the large amount of British settlers, Australian food is reasonably similar to that in Western Europe, but if you are feeling particularly adventurous get involved in some bush tucker (kangaroo, emus) or the infamous vegemite. For less scary Aussie food, look out for fresh seafood and of course, a typical Aussie barbecue!

Please let Real Gap know before you depart if you are a vegetarian or have any other dietary requirements.

Public Holidays

When planning your trip, you should be aware of the major national holidays celebrated throughout the country.

Weather

Australia is located in the southern hemisphere, where seasons are the opposite of those in the northern hemisphere.

The summer months in Australia (November to March) can get very hot. Up north, in Queensland for example, the summer period brings the rainy season and the weather can be very hot and humid with lots of rainfall. The winter months (June to August) in Queensland bring much dryer weather but still heat. The further south you go the colder and wetter winter becomes and in some mountainous areas of New South Wales, Victoria and Tasmania skiing is possible.

Time

Australia is such a big country that it has three time zones:

Eastern Standard Time (Queensland) – 10 hours ahead of GMT depending on Daylight Savings

Central Time – 9.5 hours ahead of GMT

Western Time - 8 hours ahead of GMT

Electricity

Electricity in Australia is 240 Volts, alternating at 50 cycles per second.
