Once you've arrived into Sydney, settled in and got to know a load of new travel buddies, we'll give you an orientation from our recommended recruitment agency. They will cover useful information about jobs and travelling around Oz. The agency is one of the most successful recruitment agencies in Sydney and will provide immediate access to a huge variety of jobs!!

There are stacks of opportunities available to those on a working holiday visa, although you can only be employed in casual work. The agency will try its very best to match you to a job which suits you and your skills, and this

# Ultimate Aussie Paid Work and Sydney Intro

could be anything from fruit picking to labouring to being a temp in an office based environment.

After your initial 7 nights (depending on the option you choose), you're on your own – but certainly not alone... for up to 12 months, you'll have the freedom to work, travel and have fun at your own pace, with the support of Real Gap or our Aussie partners in finding work and living life the Aussie way!

All in all, this is a great package for anyone who wants to work in Oz while having the Ultimate experience!

Upon your arrival, our priority is to find you a job as quickly as possible. All you need to do is complete the quick and easy Online Registration and let our team of Job Consultants know when you want to work. You can then leave it up to them! For your first job offer you will be made a priority and will be given the first choice of the positions available. You will then be safe in the knowledge that you have access to all job services for up to 12 months including regular email and sms job updates. This is a nice feeling considering that over 110,000 people enter Oz on a working holiday each year.

We have lots of job offers in Sydney. However we can also find you work in other parts of Australia.

There are lots of different jobs available to those on a Working Holiday Visa in Australia. The visa states that you can only be employed in casual employment during your stay. The team will try to match you to a job, which suits you and your skills, and even if your work experience is limited, you can still be offered work.

You may be offered jobs in a number of industries including hospitality, call centre, factory/warehouses, retail, labouring and fruit picking. Jobs can range from 1 day, through to 6 months and anything in between – perfect for backpackers who want to travel around a lot. The more flexible you can be with what you do, the more work will be available to you.

## Rates of pay

As a general rule, the casual work we get ranges from \$13-\$18 per hour. Skilled temping positions pay more – around \$20-30 per hour.

With the right motivation and attitude your working experiences in Australia will be positive and fulfilling. Be flexible. You never know where your job will take you unless you give it a go. People often refuse jobs because they don't like the sound of the work or that it isn't what they are used to doing at home. However, you never know when the next job will come along so make the most of every opportunity to learn and make some dollars.

And just think how much more you will appreciate those dollars when you are sitting on a tropical beach somewhere in Oz enjoying a cold beer and watching the sun set on another perfect days travelling. Here are a few tips to help get a job quickly:

If you already have plain black trousers, a white long sleeve business shirt and plain black leather/leather look shoes, bring them to Oz with you - they are always useful for job interviews and are required for some types of work.

**Please note:** Different jobs require that you have relevant experience or qualifications, such as bar work, construction industry etc. Various qualifications are required by employers, for example, the 1 Day RSA course (Responsible Service of Alcohol) teaches you the Australian laws and regulations of serving alcohol and is required to work anywhere that sells alcohol. Full details about these courses and the fees involved will be provided by the team at your orientation.

## Accommodation

For the first 7 nights you will stay in a mixed shared dorm at a fantastic hostel in the city centre. The hostel boasts facilities including a self-catering kitchen, dining room, laundry, games & TV room, travel desk, 24 hour security and internet access.

## Programme Services and Facilities

### Internet

The Internet will be available to you in the hostel, as well as the majority of hostels around Australia. As part of the programme conditions you will need to bring an UNLOCKED mobile phone handset, as a Lebara Mobile SIM Card and \$10 value free credit is included on activation. # Ultimate Aussie Paid Work and Sydney Intro

Please Note: Bank charges apply and are subject to change. It is your responsibility to close your bank account before you leave the country.

## Tax

It is a legal requirement that all people working in Australia have an Australian tax file number. This tax file number cannot be applied for until you arrive into Australia. Upon arrival at the orientation you will simply need to provide a member of the team with a copy of your passport and visa and the rest will be done for you! We will apply for a tax file number on your behalf and will manage the application process until the Australian Tax Office issues a tax file number. Our in-country partner will keep a record of the reference number that confirms the application. The tax file number will arrive via post within 28 days. You can collect their number by visiting the office or request it is posted to you if you are elsewhere in Australia.

The tax file number will allow you to work and get paid at the lower tax rate of 29%. In good faith employers will hire and pay at the lower rate with the understanding that you have applied and will receive a tax file number within 28 days. If you fail to collect your number and/or report it to your employer within 28 days, you will be paid at the higher tax rate of 45%.

## Mail forwarding and holding service

We will set up a mailbox for you before you arrive. The mailroom is located in our Sydney office. You will be shown the mailroom during your orientation. The mail service is very simple: You get your mail from overseas sent to our office then we will forward it to any address at any location within Australia for a small charge. So, no matter where you are, your mail can reach you. All you need to do is use our Internet Mail Service, tell us where you want your mail sent, make sure there is money on your Paypal account and then your mail is on the way. The Internet Mail Service will be explained to you at your orientation. If you can't get to the Internet to use the service, then we will also give you a telephone number for the mailroom so you can call us to get the mail sent to you.

The mailroom is open 6 days a week Monday to Saturday.

Please note:

- Everyone sending you mail should always put the sender address on the back of the envelope;
- Always let our in-country partner know before leaving Australia if you would like mail forwarded to your home country.

To make sure the Mail Forwarding and Holding service functions optimally it is necessary for all mail to have the correct address. Further details of this service will be given to you during your briefing.

## Luggage Storage

As part of this package you will also receive one month's free luggage storage (standard size suitcase or backpack or overnight bag), which you will be informed about at your orientation. Additional months storage can be

purchased locally as required.

**Please Note:** Real Gap, our in-country partner and the hostel cannot be held responsible for lost or damaged goods in storage.

## Health Care Services

The information provided below is to help you with that process. ## Cultural Considerations

Australia is a melting pot of different cultures. It has a population of over 21 million people with most of the population living on the east coast between Adelaide and Cairns. High waves of immigration from England, Ireland, Italy, Greece, Malta and Eastern Europe have occurred during Australia's brief history, particularly after World War II, and the later waves from the Middle-East, East, and South-East Asia, as well as the Indian subcontinent, have created a truly diverse population.

Although Australia has no official language, English is spoken by 80% of the population. Chinese, Italian and Greek are respectively the next most common languages, reflecting Australia's cultural diversity and concentration of nationalities. Australians have very strong attitudes and belief systems which are reflected in their culture. Australians traditionally have a very ironic sense of humour.

## Vaccinations & Health

Travel health can often be something people forget about before going away, but a little preparation and knowledge can go a long way to help you stay fit and healthy while abroad. The risks to your health whilst travelling will vary depending on your general health and the type of activities you are going to be partaking in and the length of your stay.

Since we are not medically qualified, it is recommended that you consult with your Doctor or a recognised Travel Medical Advisory Service who will assess your particular health risks before recommending vaccines and/or anti-malarial tablets and advising you on what precautions you should take.

## Safety

As in most countries there are people who try to take advantage of tourists. The following advice is intended to help you keep safe:

- Always keep your personal items such as passport, money and camera with you and in a safe place. You can buy mini padlocks to prevent people from going into your bag without your permission.
- Don't carry excess amounts of cash
- Wherever possible, walk around in groups, especially after dark, and avoid taking short cuts
- Do not pick up hitchhikers if you are driving and do not hitch hike yourself

- When you are out do not leave your drinks unattended, as there have been reports of drinks being spiked

We advise that you check your government's advice before travelling abroad. For UK and American customers please see the relevant links below;

UK: [www.fco.gov.uk](http://www.fco.gov.uk)

USA: [www.travel.state.gov](http://www.travel.state.gov)

## ATM Theft

It is very likely that you will need to withdraw cash at some point during your travels. Please be cautious when withdrawing money from an ATM and ensure that you are vigilant of other people near the ATM, especially those that offer unsolicited assistance if your card is detained. It has been recognised that individuals are operating unlawful withdrawals by placing 'traps' in ATMs whereby personal bank cards are being detained, causing the victim to believe their card transaction has not been completed, and leaving their bank card in the ATM which is then later retrieved by the thief.

If your card is confiscated or you are concerned that your card has been tampered with, please report immediately to the bank or cancel your card.

## Language Guide

## Food & Drink

You will find food in Australia to suit all taste buds, with the larger cities in particular offering a great range of places to eat. Due to the large amount of British settlers, Australian food is reasonably similar to that in Western Europe, but if you are feeling particularly adventurous get involved in some bush tucker (kangaroo, emus) or the infamous vegemite. For less scary Aussie food, look out for fresh seafood and of course, a typical Aussie barbecue!

Please let Real Gap know before you depart if you are a vegetarian or have any other dietary requirements.

## Public Holidays

When planning your trip, you should be aware of the major national holidays celebrated throughout the country.

To view a list of the public holidays for Australia, please see the link below:

[www.timeanddate.com/holidays/australia/](http://www.timeanddate.com/holidays/australia/)

## Weather

Australia is located in the southern hemisphere, where seasons are the opposite of those in the northern hemisphere.

The summer months in Australia (November to March) can get very hot. Up north, in Queensland for example, the summer period brings the rainy season and the weather can be very hot and humid with lots of rainfall. The winter months (June to August) in Queensland bring much dryer weather but still heat. The further south you go the colder and wetter winter becomes and in some mountainous areas of New South Wales, Victoria and Tasmania skiing is possible.

## Time

Australia is such a big country that it has three time zones:

Eastern Standard Time (Queensland) – 10 hours ahead of GMT depending on Daylight Savings

Central Time – 9.5 hours ahead of GMT

Western Time - 8 hours ahead of GMT

## Electricity

Electricity in Australia is 240 Volts, alternating at 50 cycles per second.

Sockets in Australia are V-shaped flat prongs.
