## Passports and Visas

### Thailand

You should ensure that you have a full passport that is valid for 6 months beyond the intended length of stay. It is your responsibility to have the correct personal documents and to obtain your own visa, if one is necessary, in accordance with the regulations of the country you are to visit. The information provided below is to help you with that process. We are not responsible for the actions of local immigration and customs officials, whether at points of entry or otherwise, and any subsequent effects.

Citizens of the UK, the USA, Ireland, Australia, South Africa, New Zealand and most European countries do not require a visa for stays of less than 30 days. For stays of between 31 and 60 days you can obtain a 60-day tourist visa for a fee from a Thai embassy or consulate before you travel. For stays of up to 90 days, you can extend the 60-day visa for a further 30 days while you are in the country, for a fee.

## **Round the world**

### **Cultural Considerations**

#### **Thailand**

Whilst parts of Thailand are developing very quickly and Bangkok can feel more modern than many Western cities, much of the country is still very poor and people have challenging lives. The accommodation you will be staying in is very basic and you will not have the luxuries that you may have in this country. Please respect that this is the way locals live and take the opportunity to experience this new way of life. The friendly people, the great atmosphere and beautiful location will more than make up for this. Most travellers enjoy this change in lifestyle. It is very healthy, refreshing and opens your mind to a new world.

#### **Religion**

Religion is an important part of Thai day-to-day life and the main religion is Buddhism. Around 4% of the country are Muslim (largely concentrated in the far south of the country) and there is a small Christian population.

#### **Clothing**

Note to all regarding clothes: Thailand is a very conservative country and, away from the beaches, people generally like to dress as smartly as possible and, even in rural areas you will see that most people are very conscious of being in clean and conservative clothes. Although no-one expects you to wear a suit and tie, and when at your project old t-shirts and shorts/jeans are totally appropriate, please do remember to cover up and try not to show too much flesh.

Boys – please note that wandering around without wearing a shirt/t-shirt is frowned upon (away from the beach) and in urban areas can draw the attention of the police.

Girls – please try not to expose too much flesh. Try to avoid t-shirts that expose too much and don't wear short shorts.

NOTE: When visiting a temple you are expected to cover up. Wear trousers or skirts and cover your shoulders, midriff and back.

There are plenty of opportunities to sunbathe and swim whilst in Thailand, so remember to take your bikini, swimsuit, swimming shorts etc. Flip-flops are the easiest and coolest footwear to take with you. Whenever you enter houses, temples, or home stays you will need to remove your shoes and leave them at the door. This will soon become habit and you won't even realise you are doing it. Remember to take some trainers with you as well for the outdoor activities.

There are many opportunities to buy cheap clothes from markets. These are cool, cheap and ideal for the climate and social norms.

#### **Smoking, Alcohol and Drugs**

Smoking and drinking is acceptable in Thailand and readily available. However, please respect other people. Smoking is not permissible in volunteer apartments or the host families' homes. Drinking is only permissible in moderation and must not impact upon any volunteer work you undertake. While we want you to have fun in your free time, antisocial behaviour will not be tolerated.

It is absolutely forbidden to carry drugs into Thailand. Being caught in possession of drugs can lead to at least a prison sentence and a hefty fine if you are lucky but remember there is still a very real threat of the death penalty for carrying drugs in Thailand. Always keep an eye on your luggage while travelling. Never bring anyone else's luggage through customs.

## **Bathroom Facilities**

You will experience a range of different shower and toilet facilities. Unless you are staying in a hotel you will rarely have hot water. The cool water takes a little getting used to but we are sure you'll find it refreshing after a hot and humid day. Toilets will be a combination of western and Asian. Remember to put all toilet tissue in the bin provided and not in the toilet.

You'll find that many places don't have soap or toilet/tissue paper in the bathrooms. Without going into too much detail, that's what the water can be used for (as well as flushing) or often a small water spray pipe next to the toilet. It can be useful to carry a small bottle of antibacterial gel for washing hands and small packets of tissues.

### **Vaccinations & Health**

Travel health can often be something people forget about before going away, but a little preparation and knowledge can go a long way to help you stay fit and healthy while abroad. The risks to your health whilst travelling will vary depending on your general health and the type of activities you are going to be partaking in and the length of your stay.

Since we are not medically qualified, it is recommended that you consult with your General Practitioner or a recognised Travel Medical Advisory Service who will assess your particular health risks before recommending vaccines and/or anti-malarial tablets and advising you on what precautions you should take.

A useful website to visit in the first instance is <http://www.fitfortravel.scot.nhs.uk>

### **Zika Virus**

Zika virus is transmitted by Aedes mosquitoes and whilst the infection often occurs without symptoms it can cause an illness similar to dengue fever. There has recently been reported a possible link between exposure to Zika virus (ZIKV) in pregnancy and microcephaly and other congenital malformations and investigations are ongoing. We recommend you visit the [FCO website](#) and select your destination country for the latest travel advice prior to booking.

If you are already pregnant it is recommended you seek medical advice from your GP as [The National Travel Health Network and Centre \(NaTHNaC\)](#) advises you should consider avoiding travel to areas where ZIKV outbreaks are currently reported.

## **Safety**

### **Thailand**

As in most countries there are people who try to take advantage of tourists. The following advice is intended to help you keep safe:

- Always keep your personal items such as passport, money and camera with you and in a safe place. You can buy mini padlocks to prevent people from going into your day sack without your permission.
- Always walk around in groups, never go off with strangers and people that you have only just met
- Never go out alone after dark

- Stick with the escorted trips. If you do go out in the evening unescorted, you do so at your own risk. Please tell the co-ordinator or your home-stay family where you are going, what time you will be back and ensure you sign the release form.
- Please do not get into fights, or arguments with local Thais. We cannot guarantee your safety and it could provoke future attacks on other travellers
- As in this country there have been reports of drinks being spiked on the islands. Please do not leave your drinks unattended and do not accept drinks from strangers.
- Most importantly of all, if you wouldn't do whilst your at home, then don't do it whilst you are away!

This information is not intended to scare you. Unfortunately, bad things can happen, as they can do in any country and we want you to be prepared. We want you to stay safe and have a good time.

We would like to add that the majority of the locals are friendly, warm and hospitable people who love meeting our travellers. Please be friendly, respectful and stay aware and you will have a great time.

We advise that you check your government's advice before travelling abroad. For UK, American and Australian customers please see the relevant links below;

USA: [www.travel.state.gov](http://www.travel.state.gov)

## **ATM Theft**

It is very likely that you will need to withdraw cash at some point during your travels. Please be cautious when withdrawing money from an ATM and ensure that you are vigilant of other people near the ATM, especially those that offer unsolicited assistance if your card is detained. It has been recognised that individuals are operating unlawful withdrawals by placing 'traps' in ATMs whereby personal bank cards are being detained, causing the victim to believe their card transaction has not been completed, and leaving their bank card in the ATM which is then later retrieved by the thief.

If your card is confiscated or you are concerned that your card has been tampered with, please report immediately to the bank or cancel your card.

## **Thailand Terrorist Threat**

Thailand is one of the most popular destinations for visitors to Southeast Asia. Most visitors enjoy a trouble-free stay. However, Thailand does have a history of political instability and has experienced a number of military coups since 1932. The political future of the country remains uncertain, though the situation remains stable.

Over the past 3-4 years there have been a number of political demonstrations in Bangkok and some other urban areas. Tensions rise and fall but other than in 2010, most protests are usually peaceful and Thais still go out of their way to be hospitable to visitors. However, it's always advisable to avoid large gatherings and listen to the advice of the team in country

### **Food & Drink**

#### **Thailand**

It's normal in Thailand to eat rice dishes for breakfast and it is all part of the cultural experience. In fact, rice and noodles are served with all meals. The food is gorgeous, with fresh vegetables tasting far better than they do back home. Vegetarians will be happy, as Tofu is widely available as is plenty of fresh fruit. And meat lovers will also be tantalising their taste buds visiting the many local markets where you can buy chicken satay (marinated kebabs), beef kebabs and other types of meat. It is very cheap too. Remember to let us know before you depart if you have any special dietary requirements.

## **Round the world**

### **Public Holidays**

#### **Thailand**

When planning your trip, you should be aware of the major national holidays celebrated throughout the country. However, although businesses and government offices are closed on public holidays, tourist attractions and shops are almost never closed. The main impact on the tourist of these holidays is the increased competition for travel and accommodation from Thais who use long weekends to get away from the big city.

## **Round the world**

### **Weather**

#### **Thailand**

Thailand's equatorial climate remains tropical and warm for most of the year, with the south getting the best of the weather. The monsoon season falls between May and October, bringing warm and humid air and dipping to a minimum of 18°C. This means that Thailand is a great destination at most times of the year, though the best months are between November and February when temperatures are comfortable and rains have slackened off.

## **Round the world**

### **Time**

#### **Thailand**

Thailand is 7 hours ahead of GMT.
